

## OVERVIEW

### THE EVEREST GROUP

---

Established in 1996, THE EVEREST GROUP is the largest and most comprehensive relocation and startup services provider in Mexico.

Our unparalleled scope of capability and our experience allow us to undertake relocation projects anywhere in Mexico from inception to complete operational capacities. We specialize in manufacturing projects in general and in Aerospace in particular. We have designed and delivered swift implementations to a wide range of companies, OEMs, Tier Suppliers and MRO providers.

THE EVEREST GROUP is the only startup firm in Mexico providing true strategic consulting services to our client's senior executives, in order to unlock the full potential of their offshoring strategy. As we do not represent owners of buildings, landowners, states or economic development entities, our clients appreciate our fully objective advice.

Everest's success comes from the high caliber full-time professional team working along with our robust internal processes, which provide visibility, control and quality deliverables.

Our deep understanding of the specific requirements of aerospace and manufacturing allows us to address these unique requirements right at the inception of any project in order to design optimum implementations.
